RODGERS®  
CLASSIC KEYBOARDS™

A New Standard in Home and Chapel Organs

**The C-440 from Rodgers® Classic  
Keyboards.™ Real Classic Pipe Organ  
Sound.**

A remarkable digital organ for those who demand realistic pipe organ sound.

The C-440 is a state-of-the-art digital organ in an attractive console designed to enhance the decor of church, home, office or studio.

Each pipe organ voice on the C-440 is based on Rodgers proprietary DVM™ (Digital Voice Module) technology for full, rich, accurate sound. With a 16 bit DAC (Digital to Analog Converter) containing five additional bits added to linearize output, absolute sound clarity is achieved. Plus a MIDI capability allows the use of the C-440 either in conjunction with other controllers, or as a controlling keyboard for MIDI accessories.

MIDI on Pedal  
MIDI on Swell  
MIDI on Great

**Exceptional Features**

The C-440 offers a set of features unmatched at its price level. Features like:

- Real stereo audio with three speakers per channel.

- Transposer – Using the transposer ( $\pm 4$ ), you can instantly play in another key.
- Headphone and external audio jacks to meet your specific performance or practice needs.
- A balanced expression pedal with a kick switch MIDI sustain feature.
- Three full function MIDI controls allow three channels of MIDI simultaneously.
- Five lighted general memory pistons.
- A Great/Pedal unenclosed control.
- An overall tuning control to match tuning to other instruments.
- Two 61 key velocity sensitive weighted keyboards.

Superb digital technology in a rich, wood grain console of Rodgers Walnut or Oak.

Until now, digital technology this good only came in instruments that looked more at home in a laboratory. The C-440 is housed in a rich wood grain console that complements your home, chapel or studio. Each console is backed by the attention to detail you've come to expect from Rodgers.

Front sprung 32 key Energy Coupler™ pedalboards are standard on the C-440 and C-445. Both AGO (American Guild of Organists) specification pedalboards and straight pedalboards are available.

Optional Rodgers PR-100 digital sequencer expands your capabilities for education or entertainment with full record/playback features. Using the PR-100 is as easy as using a cassette recorder.

**The C-445. Flawless Sound Plus Divided Expression and Dual Memory.**

The C-445 is an exciting new digital organ offering the features of a superb classic pipe organ. In addition to the features of the C-440, the C-445 offers:

- Divided expression pedals (Swell and Great/Pedal expression).
- Swell to Great expression control.
- A ten-piston dual memory combination action.
- Ten felted toe studs, duplicating the ten general memory pistons.

The C-445 is the instrument of choice for musicians who demand real pipe organ sound and separate expression capability at a price that fits today's cost conscious budgets.
